

DINZ Operations under “Traffic Lights”

- Deer Industry New Zealand is committed to doing everything we can to keep our people and our industry safe from Covid-19. Vaccination is the best method for limiting the impact of Covid-19.
- And so, from December 3, we are requiring all people coming to our office to be fully vaccinated.
- Our staff must be vaccinated to visit or attend offsite.
- For DINZ and DFA run events, we recommend that all attendees are vaccinated.
- **Attendees who are not vaccinated could attend online.**
- We will apply the following guidance to DINZ run events depending on ‘Traffic light level’.

For every activity, the following must be done:

- Health and Safety Plan where necessary
- Register of attendees, Trace scanning, QR codes in place
- Stay away if feeling unwell or waiting for the results of a covid test

- For all DINZ organised activities we will ascertain the vaccination status of invitees prior to the event to determine operations under the different levels.
- Where we do not know the vaccination status of all attendees, we will assume that we are less than 100% vaccinated and implement the more restrictive settings.
- At all events we will ensure hand sanitiser and face masks are available.
- If people become unwell during the event they should immediately self-isolate and seek medical assistance.

	If 100% vaccinated		
	If unknown		
	Green	Orange	Red
Small indoor meeting	No limits	No limits	Proceed with spacing
	1m distancing with seated catering	1m distancing, seated catering	Is it essential? If not do not proceed
