

## DEERresearch Research Programme and Budget for 2008/09\*

Project	Status	Funds (\$000)	Goal Alignment
<b>7.02</b> Venison Supply Systems 1. Early breeding and optimising feed requirements (\$152k) 2. Focus Farms and parasitology (\$196k) 3. Extensive system benefits (\$60k)	Approved (ends 30/06/2011)	408	<ul style="list-style-type: none"> <li>Productivity Gains</li> <li>Sustainable Production and the Environment</li> <li>Support for Post-Grad Costs</li> <li>Accelerated Learning and Technology Transfer</li> </ul>
<b>7.01</b> Johne's disease consortium	Approved (ends 30/06/2012)	100	<ul style="list-style-type: none"> <li>Deer Health and Welfare</li> </ul>
<b>1.16</b> Pastoral genomics	Ongoing (ends 30/06/2009)	34	<ul style="list-style-type: none"> <li>New Technologies for Wealth Creation</li> </ul>
<b>1.03</b> Methane mitigation	Ongoing (ends 30/06/2009)	35	<ul style="list-style-type: none"> <li>Sustainable Production and the Environment</li> </ul>
<b><u>Venison Processing</u></b>			
<b>7.04</b> Venison drip loss	Ongoing (ends 31/01/2009)	1	<ul style="list-style-type: none"> <li>Market Access and Development</li> </ul>
<b>8.01</b> Venison and water-holding (drip loss and spray chilling)	Approved (ends 30/06/2009)	50	
Unallocated	Pending	1	
<b><u>Discretionary</u></b>			
<b>8.02</b> Venison carbon footprinting	Approved (ends 30/06/2010)	10	<ul style="list-style-type: none"> <li>Market Access and Development</li> </ul>
<b>8.03</b> Co-grazing preferences	Approved (ends 30/06/2009)	3	<ul style="list-style-type: none"> <li>Support for Post-Grad Costs</li> </ul>
Unallocated	Pending	18	
	<b>TOTAL</b>	<b>660</b>	

\*Funds and project status as at 31 December 2008. This page will be updated throughout the financial year.
